

## THE COMPANY'S FOOD QUALITY AND SAFETY POLICY

SAVOUIDAKIS S. A. believes that its success depends on the continuous provision of high-quality products that meet the expectations of its customers.

The company's objective is the standardization of extra virgin and virgin olive oil that meets the requirements of customers and consumers, in relation to quality, variety, safety of the final product and hygiene.

To achieve this, the company is committed to allocating resources and implementing procedures that will continuously enhance the food safety culture of its staff. It argues that responsible for achieving the company's commitment, for the quality and safety of its products, is each of its employees, with the successful execution of their duties, having developed a food safety culture.

The company's principles concerning the quality, safety and a **strong food culture** are the foundation of its commitment to quality.

Safety and quality for the company is not limited to the production of safe, quality products. Safety and quality mean respect for its consumers, employees, and partners.

In this context, the company's administration and each employee of the factory are committed to:

- the establishment, documentation, and maintenance of H.A.C.C.P. system recognizing, evaluating, and controlling safety-related risks at all stages before and after the production and distribution of the products,
- the implementation of Greek, Community legislation on product safety and good industrial practices,
- the production and storage of quality products, meeting the requirements of our consumers, the viability of the company and the environmental responsibilities and responsibilities of the staff,
- the provision of exceptional quality services that meet the needs and expectations of our customers, as well as ethical trade, product health and safety
- the establishment of strategies for the safety and quality of our products in the annual business planning procedures,
- the establishment of annual safety and quality objectives both at individual and group level for all our activities, as well as for the viability of the company
- the disclosure of our strategies and our performance in product safety and quality to all partners as well as key external stakeholders,
- the assurance of the continuation of our product safety performance in accordance with ISO 22000 / ISO 9001 / IFS
- the human rights and workers' rights regarding wages, working hours, working environment and resource allocation,
- the environmental awareness issues
- the hygiene and safety issues in working place and the non-employment of children,
- the confirmation of products' effectiveness on the safety and quality management systems through internal and external control procedures recognized by International Standards and internal and external communication with the respective bodies,
- our effort to ensure that our suppliers feel the same commitment to product safety and quality and monitor their materials with the help of incoming product controls and inspections
- **the effort to achieve its objectives, which concern all the processes of the company and have been notified to the respective departments (Finance Sales - Procurement - Warehouse - Production, etc.) and to all staff**

The company's commitment to quality management and **food safety**, in the whole range of its activities and functions, is a commitment of the administration and all employees and an integral part of their daily work.

To achieve this specific goal, the company has defined a system of planning, implementation, monitoring and continuous improvement of its activities and has organized the management of their resources (human resources, equipment, materials, production, quality control, etc.) according to the requirements and conditions of the ISO 22000 / ISO 9001 / IFS standards.
